

You are invited to....

Puppy Preschool!

Make the most of your newly acquired puppy

Puppy pre-school classes are a way of giving your pup a **good start in life**. The socialisation period in a puppy's life is between the age of six and sixteen weeks. At this time puppies are particularly amenable to general behaviour training. What they learn while a puppy, good or bad, is what they learn for life!

Our Puppy pre-school classes have a unique syllabus covering:

- ✓ Positive motivational training.
- ✓ Puppies in general & your puppy in particular.
- ✓ Preventative medicine, environmental enrichment.
- ✓ Nutrition & general care.
- ✓ Socialisation (with strangers and other puppies).

I'm Interested - tell me more!!

Duration: 4 weeks

Time: On a week night

Puppy's age: Between six and sixteen weeks.

Where: At Northland Vet Group, 16 Maunu Rd, Whangarei
